FAMILY CODE NIGHT™

Featuring the Hour of Code™

README

Welcome to the Family Code Night Event Kit. Any school can put on this event, and you can help make it happen.

 1. To use this Event Kit, **start with the "Organizer's Guide"** and planning checklists therein, then the "Presenter's Script & Prep Guide." The "Resources Folder" has all assets for your event referred to in those two main documents.

 2. When you open the Resources Folder, <u>sort by name</u> to simplify your view of documents available to you (this groups alternative file formats of the same document, for simpler viewing).

 3. <u>Visit our FAQ</u> at FamilyCodeNight.org/FAQ for quick answers to the most common questions. Use our Contact form for questions and feedback.

 4. Be sure to sign up for future Event Kits, updates, and free program content. Visit www.FamilyCodeNight.org/contact and enter your email address as indicated (we never spam, never share.)

Finally, spread the word! Tell colleagues, friends, and educators about Family Code Night. Let's make family engagement a new force in K-5 computer science education!

Thanks for all you do!
The Family Code Night Team
